## CENTRAL INTELLIGENCE AGE CONFIDENTI

e. Amw-Cooperation (Artillery-observation) Regiment ("Delostrelecka Letka")

Based at Milovice. (051/G62). Pilots are artillery officers.

Equipment: C-4, C-104 (Bücker), K-65 (Storch), Piper.

2. | Signals (Training) Regiments (Groups) ("Spojovaci pluky")

These regiments serve the purpose of training signal personnel, and personnel for the operation of radar and "Tornado" (better known as "Gee", D-F stations, or Loran) installations.

a. Organization (see attached diagram):

Hq (Group Hq)
3 Flights (detailed organization see below)
Auxiliary Squadron ("Pomocna perut"), consisting of workshops, guard platoons,
transportation section, and depots.

1) 1st Flight: Consists of 3 plateons

1st plateon: Training of telephone operators.
2nd plateon: Training of telegraph operators and radio (ground) operators.
2nd plateon: Training of telephone operators and radio

3rd platoon: Training of teleprinter operators.

2) 2nd Flight: Consists of 2 platcons

lst platoon: Training of servicing personnel for the radarstation on Mount France (Brdy Mts.).

2nd platoon: Training of personnel for the Air-Operations Room in Prague ("LOS" - "Letecky Operacni Sal").

- 3) 3rd Flight: Training of personnel for ground observation posts.
- b. Location of Signals Groups:
  - 1) One is being established at Jicin (051/G33). Commander: Major Vejnar.
  - 2) One is to be established in Moravia, location unknown, at a later date.
  - 3) One is to be established in Slovakia, at a later date, most likely at Banska Bystrica (Bystrica, Banska, Q49/C76).
